

COMOX VALLEY SEARCH & RESCUE NEEDS YOUR HELP!

Comox Valley Search and Rescue's volunteers have for years rented commercial facilities throughout the Comox Valley to house their equipment and vehicles. For the past twenty-five years operations have been based at 3001 Moray Avenue.

Over the years, this site has undergone a series of substantial renovations funded by the team and generously supported by donors, to make the facility into an effective hub for operations, training, and logistics. Like a small firehall, the current building securely houses the substantial and valuable rescue equipment needed for a modern, innovative and sector leading team to be able to respond to the ever-increasing number of calls CVSAR receives each year.

The team has made a decision to seek a permanent future site for operations either from our current location or a new build within Comox Valley as our current lease in our building on 3001 Moray Avenue ends in 2023.

Comox Valley SAR has always been fiscally prudent and began the process of setting aside funds three years ago towards this goal. It is expected that the purchase price of the existing building or to build new will be between \$1,200,000 and \$1,500,000. As such we will be looking to our community to help us establish a permanent home through an ambitious fund-raising campaign over the next year and a half.
